

EXPOSED: Cedar Court hotel Wakefield. ILLEGAL IMMIGRATION

19 September 2020 at 19:18

All young fighting age Muslim men not one family. We are being invaded.
I don't necessarily agree with Britain First but they are exposing what is going on.

These are not starving refugees .. running from countries ravaged by war.

It is time that the world leaders stood up and sorted out the issues in the countries where women and children are under constant attack, such as Syria, Yemen, Iran, Sudan etc. They must create peace so that everyone can return to their own countries and build up their lives and prosperity again. It is not right that a handful get the benefits of a sheltered life in the UK while millions suffer the ravages of internal tribal war.

And spending BILLIONS of GBP to rent luxury hotels at a premium, and not even provide a service for that money .. stinks of corruption at the highest levels. The £4 billion set aside for "accommodation would be better used to start rebuilding good governance in these areas of conflict.

Another day, another migrant hotel exposed by the fearless activists of Britain First.

This time they visited the Cedar Court Hotel in **Wakefield**, a huge luxury hotel used completely for housing **illegal** immigrants at taxpayer expense.

The Britain First team managed to **enter** the hotel and film **dozens** of migrants inside.

Please **watch** the report below then **share** on social media:
