SUMMARY RE SOROS AND LORD MARK MALLOCH BROWN

On Sat, Nov 21, 2020 at 11:28 AM Naomi King wrote:

Not only that, but the key figure controlling Smartmatic is none other than **Lord Mark Malloch Brown**, a former vice chairman of George Soros' Investment Funds (2007), as well as Soros' Open Society Institute and **World Economic Forum**, former Vice President at the World Bank (1995-1999), UN Administrator for Development (1999-2005), UN Deputy Secretary General and UK Minister of State for Africa, Asia and the UN (2007-2009). For those still out of the loop, Smartmatic furnishes voting machines and its software (backdoor codes and all) to governments all around the world and is highly enmeshed with the Clinton Foundation, Soros' Open Society and Nancy Pelosi's very own Chief of Staff. The largest private computer voting system in the USA which services 30 states and 70 million voters was shown to be at the heart of the current election theft. In that article, it was made clear that Dominion Voting Systems is a Canadian company which dominates the USA's private computerized voting systems and is closely tied to another larger company called Smartmatic. Malloch Brown began working closely with George Soros on a number of projects that radically altered the world. From 1993-1994, Malloch Brown was part of the Soros Advisory Committee on Bosnia where advanced the Balkanization projects of the 1990s. In 1998, Malloch Brown **also co-founded Soros's International Criminal Court** (ICC) after the duo had created the **International Crisis Group** (ICG) in 1994. These institutions served to 1) shape "international perception" of the causes and solutions to "crises", real or fabricated and 2) advocate solutions that removed sovereignty in military and judicial affairs from sovereign nation states where they had been enshrined in the UN Charter, Nuremburg laws and UN Declaration of Human Rights, to supranational unelected organizations under the control of "experts". As Vice President of the World Bank from 1995-1999 he took credit for transforming its image to a more democratic organization, and from 1999-2005 led in the creation of the Millennium Development Goals which increasingly tied UN funding to George Soros' Open Society operations internationally (during his time in New York, Malloch Brown lived on an estate owned by Soros).
