

Worrisome Signs the Capitol Breach was Planned to Discredit Trump Supporters: An Eyewitness Account

9 January 2021 at 10:08

The Trespasser says,

“Maybe I did something wrong but God will judge me. May be I invaded someone else’s space in the Capitol but I was as respectful as I could be

But whose space is it? When no one will listen to us, the courts will not hear the evidence, the governors and mayors do not want to help then surely the space is that of the people.”

Contrast that with the Antifa - Democrats trap set by non Trump supporters to make less committed Republican Senators swing behind Biden. It worked but what is the nation’s cost?

Likewise what is the cost to our nation in the UK of our courts not listening to the Dolan arguments, of not listening to Lord Sumption, if the totalitarian diktats of a failing Boris with a globalist Hancock in thrall to The World Economic Forum of THE GREAT RESET and BUILD BACK BETTER and the Ferguson failed modelling of theory without analysing 9-12 months of real data.

There is a nationwide availability of real data from all shops and supermarkets, factories and building sites. It is not analysed. Repeatedly returning to proven paths of failure is economic social constitutional and medical madness.

There will be a huge economic and constitutional price to be paid over many years in both the USA and the UK.

The Capitol and two videos :

Now, please read below and “ contrast the frustration and conflicted attitude of this [Capitol building trespasser](#) with that of the proud of this [BLM rioter](#). One calls for prayer while the other calls for “reparations.”

The trespasser is easily listened to below. The BLM hate and violence rants are easily heard on the blue tab above.”
