Subject: UK government secretly admits covid-19 vaccines will produce unprecedented death wave

With the covering up of the serious adverse effects and even deaths that have occurred during the trials of the various vaccines, especially Oxford Astra-Zeneca, JohnsonandJohnson, Moderna, Glaxo SmithKline and Pfizer, advertising 90plus percent effective - while mentioning nothing about the lack of safety, and the lack of these Companies' liability if serious adverse effects occur, it is not surprising the UK Govt is looking into what deaths and levels of serious vaccine injuries might occur.

This article reports what has been reported here in the UK too, that the UK Govt knows the dangers of these highly experimental and under-tested vaccines, and are anticipating a wave of serious adverse effects and deaths.

As if this is not bad enough, although fully predictable if one has been following the progress of this story, I was sent information from a Canadian Liberal Party Committee Member that Canada is ready to implement the Great Reset 2021 - 2030 (as planned by Prof. Klaus Schwab and World Economic Forum as he recently broadcast) fleshing out the details of how this Great Rest 2021 would be rolled out across Canada.

Similar information has just come regarding South Africa, and shortly thereafter also from Australia. In UK we have got the Coronavirus Act Newly confirmed which gives sweeping powers to the government, and from recent posts, the building of Transit Towns are being mandated in certain cities across UK, which would also fit into the scenario depicted in the Canadian report.

VACCINE DEATH WAVE: UK government posts bid for AI system to process the expected flood of COVID-19 vaccine injuries and side effects described as a “direct threat to patient life”

## UK government secretly admits covid-19 vaccines will produce unprecedented death wave

The UK government is now secretly admitting that covid-19 vaccines will produce an unprecedented death wave as the nation is flooded with vaccine "adverse events."

This has emerged from a contract award document authored by the MHRA, which is begging for a new AI system to process the wave of covid-19 vaccine adverse events that it explains are a "direct threat to patient life."

The wave of vaccine side effects is expected to be so large that it will overwhelm the MHRA's legacy systems.

*Also today:* A new video originally posted on Instagram reveals how the AstraZeneca covid-19 vaccine is made from aborted human fetal tissue. In this case, it's taken from a 14-week-old human baby, part of the organ harvesting operations run between Planned Parenthood and the vaccine manufacturers.
